Dear Mrs Manley.

at this time I am taking the liberty of writing to you and may I introduce myself. I am Wallie Hanett a veteran of this last war, and Mrs Manley the reason I am writing to you is hoping that I can get some information or some help towards getting help in playing baseball or at least getting a try out with some team or so what. I have heard a great deal of good talk about your concern of the Newark Eagles and Mrs Manley I would like nothing better than playing for the eagles or getting a tryout with them. also Mrs Manley I have heard a great deal of talk about this new league the United States league. Mrs Manley I am very interested in playing baseball and I am quite anxious to get some help towards getting a start in playing ball

II

as for my experience in playing baseball - I have played quite a lot of semi pro ball and sand lot also while in the service I played quite also and against big league competition. I do hope Mrs Menley that you have not minded my writing to you and I also hope that I have not written in vain, and that I hope you will be able to give ~~me~~ some kind of information towards how I may go about getting into baseball or whom I may see -

I would appreciate
hearing from you

Sincerely yours
Willie Garrett.
